

Electronic Sign In

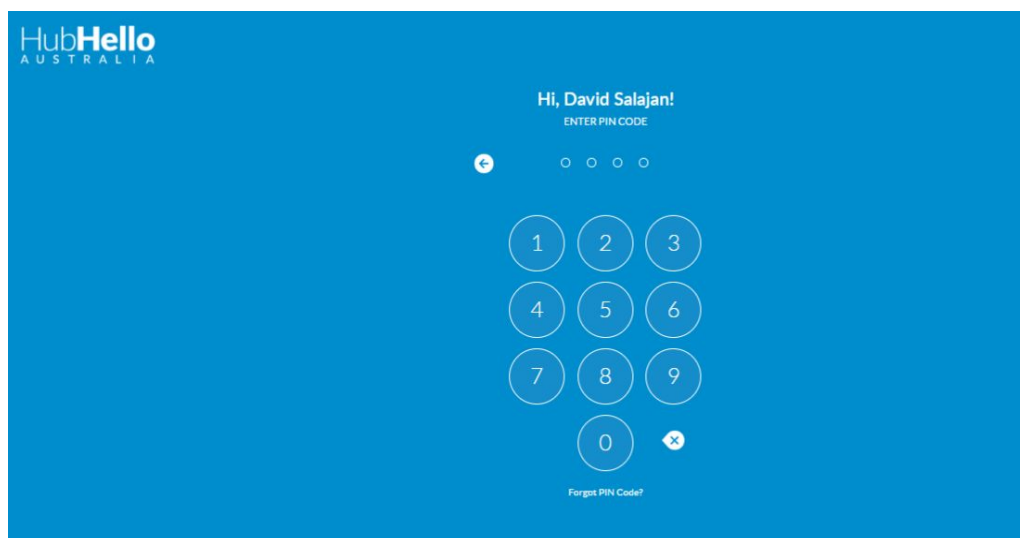

Why use Electronic Sign In?

- Assists the service to record the actual sign in and out times by the family as this is a requirement from January 2019
- Makes signing in easy and more secure as only registered contacts are able to sign in or out
- It is paperless and more sustainable on the environment
- Record keeping is easier as the information is stored without the need to print and archive

What does Electronic Sign In look like?

You will enter in your phone number
